BASKETBALL CLUB

We intend to provide support to students who enjoy playing the game of basketball and create an environment where students can play freely and practice their skills to enhance their level of play. We shall serve as a resource for the campus population and become a catalyst for encouraging individual development as well as encouraging the development of teamwork and unity.

2010 Spring Semester Goals

1. To enjoy the great sport of basketball in a respectful and competitive manner.
2. To spread Soka University awareness through games and tournaments.
3. To attend at least two tournaments this semester.
